

BOLD

The holistic center “Beauty Imagini” has launched the implementation of the project *"BOLD"*, aimed at empowering and providing support to women from vulnerable social groups. The project is being carried out in cooperation with the *Victimology Society of Serbia – VDS*, which is participating as a partner organization.

The target group includes women who are survivors of violence, women with disabilities, Roma women, as well as other women in vulnerable positions. The project's goal is to improve their social and economic status, strengthen their self-confidence, help them achieve economic independence, and facilitate their integration into society.

Through educational activities, participants will have the opportunity to gain practical knowledge and skills in the field of massage, which will enhance their competitiveness in the labor market and increase their chances of employment. Throughout the program, women will have access to the services of the *VDS Info and Victim Support Service*, which operates within the Victimology Society of Serbia. They will also take part in the program *From Victim to Survivor: Using One's Own Capacities to Escape Violence*.

The project is implemented with the financial support of the *Ana and Vlade Divac Foundation*.
